

A. To increase the appeal, range and accessibility of our services of worship.

How?

1. Rev'd Annette to set up a small working group that will support her in the preparation and implementation of all services and in particular the key annual services of worship (e.g. Easter, Pentecost, Michaelmas, All Saints, Christingle, Midnight Mass);
2. That group to review, inter alia, the *raison d'être* for a family service, the possible reintroduction of Sunday School, other regular services (in addition to the weekly Sunday service) to be offered, for example one which builds on the many baptisms held at ASNE;
3. Continue to encourage the range of people and age-groups who help to deliver the regular Sunday services e.g. to read, to act as servers, to lead the intercessions etc;
4. Re-establish performances of the choir at key annual services and broaden the range of music played;
5. Establish a programme of visiting speakers at the Sunday service (one every 4-6 weeks);
6. Identify what can be done to improve the sound system and prioritise any fundraising required to implement;
7. Record, as a minimum, the key annual services for those unable to attend in person.
8. Through Churches Together New Eltham (CTNE), continue to establish a regular programme of shared services that could for example include an outdoor service in the Peace Garden.

Lead: Rev'd Annette and working group (still to be identified)
